PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in Python, SQL, Power BI, and data visualization. Skilled in Exploratory Data Analysis (EDA), dashboard development, and transforming raw datasets into actionable business insights. Experienced in analyzing sales trends, building analytical reports, and supporting data-driven decision-making. Strong foundation in statistical analysis, machine learning, and business intelligence tools.

TECHNICAL SKILLS

Programming & Query Languages: Python, SQL, C#, Java

Data Analysis & Visualization: Power BI, Tableau, Matplotlib, Seaborn, Pandas, NumPy

Databases & Tools: MySQL, SQL Server, Snowflake, Advanced Excel, Git, Jupyter Notebook, Google Colab

Business Intelligence & Analytics: Dashboard Development, KPI Reporting, Data Cleaning, Predictive Analytics

Machine Learning: Scikit-learn, TensorFlow, Predictive Analytics, Statistical Analysis

EXPERIENCE

Smaartt Digital Consulting | Data Analyst Intern

12/2024 - 03/2025 | Kochi, India

- Performed Exploratory Data Analysis (EDA) on sales datasets to identify revenue trends, regional performance, and customer behavior patterns.
- Built data visualizations and analytical reports using Python, Matplotlib, and Seaborn for business decision-making.
- Cleaned and transformed raw datasets using Python and SQL to improve reporting accuracy and analysis efficiency.
- Prepared dashboards and summarized analytical findings for stakeholders and management teams.
- Supported data-driven strategies through actionable insights and trend analysis.

MES College of Engineering | Assistant Professor

12/2025 - 04/2026 | Kochi, India

- Delivered lectures and tutorials in computing and data analytics subjects.
- Mentored students in academic projects, research activities, and practical learning initiatives.
- Prepared assignments, evaluation materials, and supported departmental academic activities.

PROJECTS

Sales Performance Dashboard | Power BI, SQL, Excel

- Developed an interactive dashboard analyzing 10K+ sales records to monitor KPIs and regional sales trends.
- Analyzed regional and product-based sales trends to support business insights.

Customer Churn Prediction | Python, Scikit-learn, Pandas

- Built a machine learning model using Random Forest algorithms to predict customer churn.
- Performed data preprocessing, feature engineering, and model evaluation.

Netflix Data Analysis | Python, Pandas, Seaborn

- Conducted EDA on Netflix datasets to identify content trends and audience patterns.
- Created visualizations to analyze genre popularity, release trends, and ratings distribution.

EDUCATION

Master of Science in Data Analytics | Rajagiri College of Social Sciences (2023 - 2025)

Bachelor of Computer Applications | Saintgits College of Applied Sciences (2020 - 2023)

CERTIFICATION

Microsoft Power BI Data Analyst
SQL for Data Science | UC Davis
Data Analysis with Python | IBM

LANGUAGES

English
